LEGISLATIVE AND REGULATORY UPDATE

The Collaborative Pharmaceutical Task Force final report to the General Assembly has been released and is available on the ICHP website. A vast majority of the Task Force's recommendations have now been placed in an amendment to HB1270 which is already winding its way through the fall veto session (Oct. 28-30 and Nov. 12-14) and is expected to easily pass and obtain the Governor's signature! While a couple of the key recommendations were omitted from the amended language, it was done to prevent any drag on the legislation during this short session. Their absence, however, will not be ignored and are already planned to be taken up when the spring session begins next January. If you have questions on how and where to do that, contact [Scott Meyers](#) in the ICHP office.
