

ICHP Position Statement - Promotion of Public Education on Health Issues

ICHP recognizes that pharmacists have the knowledge and opportunity to promote and participate in community health programs related to, but not limited to, the following: disease prevention, mitigation, and treatment control programs, safe medication use, poison prevention, immunizations, smoking cessation, health screening, emergency preparedness, and substance abuse. ICHP encourages and supports pharmacy technician and student participation in health promotion and disease prevention programs according to their designated scope of practice.
