CommunityHealth

Serving people without access to essential healthcare.

Calling all pharmacists, pharmacy techs, and pharmacy students!

CommunityHealth is a medical home for uninsured and underinsured adults in the Chicago area. Open six days per week at multiple locations, we provide high-quality care at no cost to **over 4,000 patients.**

As part of our comprehensive range of in-house services, CommunityHealth runs a fully equipped pharmacy to fill prescriptions for our patients - **completely free.**

Volunteer pharmacists:

Volunteer pharmacists work with technicians, students, and other volunteers to dispense prescriptions, and have the opportunity to counsel patients, consult with providers and assist with the coordination of care.

Volunteer pharmacy technicians:

Volunteer pharmacy technicians, under the supervision of a licensed pharmacist, are responsible for intake, processing, and filling of prescriptions as well as inventory of medications and pharmacy supplies.

Scan the QR code or **click here** to join the pharmacy volunteer team at CommunityHealth!

Volunteer commitment:

- Pharmacy volunteers must commit to at least **one four-hour shift per month for one year**, but more shifts are always encouraged!
- Daytime, evening, and weekend shifts are available
- Shifts are held **onsite** at our main location in West Town, 2611 W. Chicago Ave.
