

ICHP Website Community Service Page – Use Policy

Background and Purpose:

The Community Service Page of the ICHP Website is intended to connect ICHP members who are organizing community service projects in their area with other ICHP members who are willing to participate. AIDs Walks, the Cancer Society Relay for Life, staffing free clinics, Special Olympics and much more are examples of community service projects and activities that ICHP members frequently participate in and many others would love to join if they knew there was a team already forming or in place.

Policy:

If you as an ICHP member have a community service project in the planning stage and would like to list it on the ICHP Community Service page, forward details to Amanda Wolff at the ICHP office via e-mail at amandaw@ichpnet.org or phone her at (815) 227-9292.

Details of the event must include all of the following:

- Name of the event
- Event sponsor
- Date
- Time
- Location
- Physical and/or professional requirements to participate
- Any fees required to participate
- Contact information of the ICHP member forming the team or coordinating the event.

ICHP reserves the right to refuse to post events that may be inappropriate, offensive, or violate city, state and federal laws.

Approved: October 12, 2011
